MOUNT ALLISON CONSISTENTLY RANKS AS CANADA'S TOP UNDERGRADUATE UNIVERSITY

A degree from Mount Allison will take you places! Just ask Youji — he graduated with an honours chemistry degree and is now working in business development for a biomedical start-up in British Columbia.

Prior to that, he led a team to build a machine to detect and control infectious diseases such as tuberculosis and malaria.

Mount Allison prides itself on providing a high-quality academic experience, combined with a variety of hands-on learning opportunities in a close-knit community. Whether you immediately enter the workforce or continue your education, your degree from Mount Allison will stand out on your resumé and help you navigate your career path.

“My degree helped me get to where I am in my career. Mount A is a really great place to build experiences in student research and skillsets in highly technical work, but at the same time learn how to build relationships.”

BUILD BONDS IN THE CLASSROOM

GET TO KNOW YOUR PROFESSORS, FELLOW STUDENTS, AND YOURSELF IN SMALL-SCALE CLASSROOMS

With roughly 2,300 students, an average first-year class size of 60, and upper year classes as small as three, the small class difference can be found across campus. That means you have the space to collaborate, the confidence to ask questions, and the freedom to share your ideas.

You will be able to connect easily with your professors — who are leaders in their fields — both inside and outside the classroom. These meaningful interactions at a smaller university will provide you with valuable networking opportunities, guide you throughout your degree, and help you figure out what you want to do next.

“Because of the small size of the classes, the approach I can have with my professors is amazing. They are always trying to help you become the best student you can be.”
