PREPARE FOR YOUR CAREER PATH

Bachelor of Arts and Bachelor of Science students must choose a **major** area of specialization and a **minor** area of specialization by the end of second year — or a double major or triple minor. Commerce students must choose a non-Commerce minor.

CHOOSE MAJORS AND MINORS THAT MATCH YOUR INTERESTS AND CAREER GOALS

It's easy! Begin by selecting one of our six degrees: **Arts, Science, Arts and Science, Commerce, Fine Arts, or Music.** Then you can be creative and choose majors or minors that interest you — like studying environmental science and English or psychology and political science. Plus, you can add Undergraduate Certificates in an area of interest to any degree (mta.ca/certificates).

With more than 50 programs to choose from and a little curiosity — the possibilities are endless.

You might know exactly what you want to study, or maybe you will take a little time to figure it out. You pick your majors and minors at the end of second year, so there's lots of time to explore your options and decide on your direction.

You will graduate from Mount Allison prepared for the next step. Mount Allison graduates are well equipped for graduate or professional schools, like law, dentistry, and medical — or to enter into the competitive job market.

“I know I would never be in the place that I am now if it weren't for my involvement in the Students' Union. The opportunities Mount A gave me were really unique.”

9 SMALL CLASS SIZES

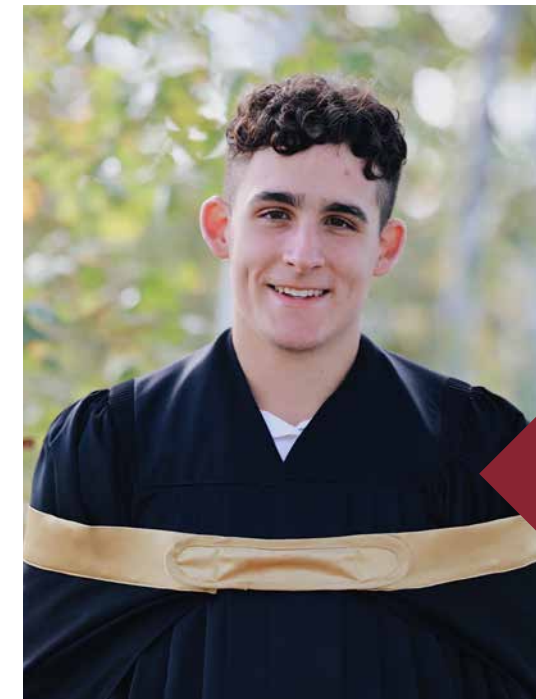

BUILD BONDS IN THE CLASSROOM

GET TO KNOW YOUR PROFESSORS, FELLOW STUDENTS, AND YOURSELF IN SMALL-SCALE CLASSROOMS

With roughly 2,300 students, an average first-year class size of 60, and upper year classes as small as three, the small class difference can be found across campus. That means you have the space to collaborate, the confidence to ask questions, and the freedom to share your ideas.

You will be able to connect easily with your professors — who are leaders in their fields — both inside and outside the classroom. These meaningful interactions at a smaller university will provide you with valuable networking opportunities, guide you throughout your degree, and help you figure out what you want to do next.

“The small class sizes allow you to build relationships with your profs... By building these relationships the doors open for great opportunities in research. All you have to do is be curious!”
